Hi LITER Holiday Gift Guide

Shop local this season!

Up on the Housetop...

The beloved Christmas song "Up on the Housetop" is believed to have been inspired by another popular piece of holiday writing. Written by American composer Benjamin Hanby in 1864, "Up on the Housetop" was at least in part inspired by Clement C. Moore's 1822 poem, "A Visit From St. Nicholas" (now more widely referred to as "The Night Before Christmas").

Since Hanby wrote the song nearly two centuries ago, it has been performed by countless artists. Two of the more notable renditions were performed by famed singing cowboy Gene Autry in 1953 and television personality Kimberley Locke in 2005.

That those two renditions were performed more than half a century apart is a testament to the enduring popularity of "Up on the Housetop," which can be heard in department stores and at holiday parties throughout December.

Up on the Housetop

Up on the housetop reindeer paws, out jumps good old Santa Claus
Down through the chimney with lots of toys
All for the little ones,

Christmas joys
Ho, ho, ho! Who wouldn't go?
Ho, ho, ho! Who wouldn't go?

Up on the housetop, click,
click, click,
Down through the chimney
with old Saint Nick

First comes the stocking of
little Nell,
Oh, dear Santa fill it well,
Give her a dolly that laughs
and cries,
One that can open and shut
her eyes

Ho, ho, ho! Who wouldn't go?
Ho, ho, ho! Who wouldn't go?
Up on the housetop, click,
click, click,
Down through the chimney
with good Saint Nick

Look in the stocking of little Bill
Oh, just see what a glorious fill
Here's a hammer and lots of
tacks
Whistling ball and a whip that
cracks

Ho, ho, ho! Who wouldn't go?
Ho, ho, ho! Who wouldn't go?
Up on the housetop, click,
click, click,
Down through the chimney
with good Saint Nick

Fun by the Numbers!

Like puzzles? Then you'll love sudoku. This mind-bending puzzle will have you hooked from the moment you square off, so sharpen your pencil and put your sudoku savvy to the test! **Here's How It Works:** Sudoku puzzles are formatted as a 9x9 grid, broken down into nine 3x3 boxes. To solve a sudoku, the numbers 1 through 9 must fill each row, column and box. Each number can appear only once in each row, column and box. You can figure out the order in which the numbers will appear by using the numeric clues already provided in the boxes. The more numbers you name, the easier it gets to solve the puzzle!

CRASH TEST TECHNICIAN

MGA Research is one of the leading companies in automotive crash testing located outside of Burlington, WI. This role is for a full-time, salaried, entry-level position to prepare vehicles to successfully go through crash tests. This includes instrumenting vehicles with various test devices, photographing and measuring vehicles, setting up video cameras and data acquisition systems, and interacting with global customers. MGA is looking for highly motivated individuals that have a willingness to learn in a fast-paced environment. Applicants must be comfortable using power tools, computers, and other precision equipment.
