Fire Prevention Week, Oct. 6-12

Snuff out the risk of fire in the home

Did you know that fire departments across the nation receive a call about a home fire every one-and-a-half minutes?

According to the Red Cross, approximately 68,000 disasters take place each year, and of those, the majority are home fires. Fortunately, there are steps you can take around your home to reduce the risk of fire. These include:

Arrange for a professional cleaning and inspection of wood stoves, fireplaces and furnaces prior to the start of each heating season.

Inspect all electrical outlets and extension cords, and make sure they are in good condition and are not overloaded.

Store matches, lighters and volatile chemicals in their original containers in a locked cabinet out of the reach of children.

Place space heaters away from combustibles and turn them off when leaving the room.

Stay in the kitchen or at the grill while cooking and keep combustibles away from the stove- or grill-top.

Install smoke detectors on each floor and bedroom in your home, and test them regularly.

Keep combustibles away from wood stoves, fireplaces and furnaces.

Douse cigarette butts with water before throwing them into the trash.

Handle gasoline with care and store it in an approved container out of the reach of children.

Keep candles away from combustibles and out of the reach of children, and extinguish the flames when leaving the room.

Place fire extinguishers throughout your home and learn how to use them.

Burn wood only in wood stoves and fireplaces, and use a fireplace screen when possible.

In addition to following these safety tips, you should devise a fire escape plan with two exits out of every room and practice it often with your family. You should also arrange for everyone to take a fire safety course. That way, in the event that a fire happens, your family will know how to react.

THANK YOU TO THE FOLLOWING BUSINESSES FOR THEIR SPONSORSHIP OF THIS PAGE. PLEASE PATRONIZE THESE LOCAL BUSINESSES WHO SUPPORT OUR COMMUNITY.
